

Becky Wilshaw – Blis Cakes:

Becky comes from a food loving family. She was supposed to be doing an essay on Sports Nutrition for her degree when, sorting through her papers, she found a note from her mum educating her on exactly what food was, "yummy scrumptious goodies"! Since then she has learnt how to make lots of yummy scrumptious goodies, to the point of turning a hobby into a full time job, and to make them as delightful to look at as to eat.

Blis cakes is a 5 hygiene rated home baking business based in Barlaston that has been established for over five years. Becky says: "In my time I've been asked to make all sorts of things from cake and to decorate cakes on all sorts of themes but baking for a nation of animal lovers I frequently get asked to incorporate people's pets onto their cakes; being a dog 'mum' myself I particularly like being asked to do cakes featuring dogs and dog figures in particular."

To make a dog figure Becky works from photographs of your pet to try and capture the breed characteristics and, more specifically, your dog's characteristics making them a truly unique cake topper. Although the figures are made entirely from edible material she's not sure many do actually get eaten!

As a special 'Pawfect Pack' member, Becky is offering That's Pawfect customers **10% off** her yummy, scrummy and totally fabulous wedding cakes 😊 Take advantage of the offer and wow your guests with one of Becky's Blis-ful creations!
